Menna Omar

Frontend Developer | React & Next.js

Cairo, Egypt Email +20 111 905 1584 GitHub LinkedIn Portfolio

Summary

Junior Frontend Developer focused on **React.js** and **Next.js**, with professional experience contributing to an existing production **Vue.js** application. Hands-on experience building frontend features, consuming **REST APIs**, debugging application data flows, and improving validation and error-handling workflows.

Experience

Frontend Developer Intern — *Smart village, Egypt*
eDariba — SaaS Platform — *Jun 2026 – Aug 2026*

- Developed and extended frontend features in an existing **Vue.js** codebase, working with **REST API**-driven workflows including document preparation, order data, and validation
- Contributed to frontend workflows involving **third-party platform integrations**, consuming authenticated API data and handling external data within existing application flows
- Improved and refactored **validation and error-handling flows** to preserve structured, field-level validator errors and display clear feedback in the UI, debugging how validation data moved between application layers
- Investigated and resolved **frontend and data-flow issues**, using **Postman** for API investigation and collaborating through **Git/GitHub** workflows and code reviews

Frontend Web Development Intern — *Cairo, Egypt*
Web Masters — *Aug 2025 – Oct 2025*

- Built the **Etoile** restaurant web app solo with **React.js** and **Supabase**, with a responsive, accessible UI
- Contributed **reusable components** to team **E-Commerce** (React.js) and **LMS** (**Next.js** + **TypeScript**) apps
- Refactored 2 legacy projects by migrating CSS to **Tailwind CSS** and restructuring JavaScript; participated in code reviews and Git workflows with senior developers

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Vue.js, Redux Toolkit, React Query, Tailwind CSS, React Hook Form, Zod
Concepts: REST API Integration, Third-Party Integrations, Authentication, State Management, Reusable Components, Data Validation, Debugging, Responsive Design, Web Accessibility
Tools & Platforms: Git, GitHub, Postman, Vercel, Supabase, Figma

Projects

AuraStore – E-Commerce Storefront [GitHub] | [Live Demo]

- Built a responsive storefront with **Next.js**, **TypeScript**, and **Tailwind CSS**, featuring product search, filtering, and pagination
- Implemented authentication, profile management, cart, wishlist, and cash/online checkout using **NextAuth.js**, **Redux Toolkit**, and REST APIs; validated forms with **React Hook Form** and **Zod**

Green Haven – Hotel Booking & Management Platform [GitHub] | [Demo]

- Guest-facing booking app built with **Next.js App Router** and **NextAuth**, covering authentication, booking flow, and server-side data fetching
- Companion staff dashboard in **React.js** for managing bookings, cabins, and guests [GitHub] | [Demo]

CoNetic – Real-Time Collaboration Platform *(Graduation Project)* [GitHub] | [Demo]

- Built a real-time project management platform with **React.js**, **Tailwind CSS**, and **SignalR**, featuring drag-and-drop task boards, role-based access control, and an AI-powered job recommendation engine (**Python**, BM25)

Education & Certifications

Bachelor's Degree in Computer Engineering — *Cairo, Egypt*
Faculty of Engineering at Shoubra, Benha University **84.2%** *(Very Good)* — *2020 – 2025*

- **Frontend Development Diploma** — Route Academy *2024* [Certificate]
- **Web Development Fundamentals** — SprintUp *2025* [Certificate]
